IMPORTANT INFORMATION

This Information Memorandum (**IM**) has been prepared by Gyrostat Capital Management Pty Ltd ACN 138 219 002 AFSL 452917 (**Gyrostat Capital, we or us**) as Trustee for the Gyrostat Absolute Return Income Equity Fund (**Fund**). This IM sets out general information about the Fund for the recipient of this IM (**Recipient**) to consider in making a decision as to whether the Recipient should investigate a possible investment in the Fund.

This IM is supplied personally to the Recipient on the conditions set out below, which are expressly accepted and agreed to by the Recipient, in part consideration of the supply of the IM, as evidenced by the retention by the Recipient of this IM. If these conditions are not acceptable the IM must be returned to us immediately.

This IM has been prepared for the purpose of issuing Units in the Fund, which do not require the giving of a product disclosure statement under Part 7.9 Division 2 of the Corporations Act 2001 (Cth) (**Corporations Act**). Accordingly, the Fund is not, and is not required to be, a registered managed investment scheme under the Corporations Act and this IM is not a product disclosure statement.

This IM does not constitute an offer to sell or the solicitation of an offer to buy any securities other than units in the Fund (**Units**) nor an offer or solicitation in any circumstances in which such an offer or solicitation would be unlawful.

This IM does not purport to contain all the information that may be required to evaluate any transaction in relation to the Fund (or would be required if it were a product disclosure statement). Before investing, the Recipient and intending investors should conduct their own independent review, investigations and analysis of the Fund and of the information contained, or referred to, in this IM and, where necessary, consult professional advisors.

To the extent permitted by law, neither Gyrostat Capital or its related entities, directors, officers, employees, advisers, associates or representatives make any representation or warranty, express or implied, as to the accuracy, reliability or completeness of the information contained in this IM or subsequently provided to the Recipient by Gyrostat Capital, including, without limitation, any historical financial information, estimates and projections and any other financial information derived there from, and nothing contained in this IM is, or shall be relied upon, as a promise or representation, whether as to the past or the future.

All statements of opinion and/or belief in this IM and all views expressed and all projections, forecasts or statements relating to expectations regarding future events or possible future performance of the Fund represent Gyrostat Capital's assessment and interpretation of information available as at the date of this IM. No representation or warranty is made or assurance given that such statements views, projections or forecast are reasonable or correct or that the objectives or prospective returns of the Fund will be achieved. Recipients and intending investors must determine for themselves what reliance (if any) they should place on such statements, views, projections or forecasts and no responsibility is accepted by Gyrostat Capital. Intending investors are strongly advised to conduct their own due diligence.

An investment in the Fund does not represent a deposit with or a liability of Gyrostat Capital. An investment in the Fund is subject to investment risk, including possible delays in repayment and loss of income or capital invested. None of Gyrostat Capital or its related entities, directors, officers, employees, advisers, associates or representatives in any way guarantees the performance of the Fund or any return of capital. Further, none of Gyrostat Capital or its related entities, directors, officers, employees, advisers, associates or representatives in any way make any representation, warranty, prediction, promise or assurance (either express or implied) as to the performance of the Fund or any return of capital

There is no public market for Units in the Fund.

Except insofar as liability under any law cannot be excluded, Gyrostat Capital takes no responsibility for the information contained in this IM or in any other way for errors or omissions (including responsibility to any persons by reason of negligence).

This IM has been prepared as at 22 December 2020. (**Preparation Date**). Its delivery at any time after the Preparation Date does not imply that the information contained in it is accurate, timely and complete at any time subsequent to the Preparation Date. Gyrostat Capital may in its absolute discretion, but without being under any obligation to do so, update or supplement this IM. Any further information will be provided subject to these terms and conditions.

Gyrostat Capital has not authorised any person to give any information nor make any representation or warranty in connection with the Fund or this invitation, which is not contained in this IM and any such information or representation or warranty not contained in it must not be relied upon as having been authorised by or on behalf of Gyrostat Capital.

Gyrostat Capital reserves the right to evaluate any offers and to reject any or all offers submitted, without giving reasons for rejection. Gyrostat Capital is not liable to compensate the Recipient or any intending acquirer for any costs or expenses incurred in reviewing investigating or analysing any information in relation to the Fund, in making an offer or otherwise.

The information in this IM is of a general nature only. In preparing this IM we did not take into account any person's needs, objectives or financial situation. Before acting on information contained in this IM you should consider whether it is appropriate for you. Recipients and intending acquirers should seek professional investment, legal and taxation advice as to whether an investment in the Fund is appropriate for them having regard to their personal objectives, financial situation and needs.

The information in this IM is provided personally to the Recipient as a matter of interest only. It does not amount to a recommendation either expressly or by implication with respect to any investment in the Funds.

The contents of this IM are:

- ◆ not intended to be disclosed to any person other than the person to whom the IM has been provided to by Gyrostat Capital;
- ◆ strictly confidential;
- ◆ not to be disclosed by any Recipient to any other person or entity, whether an associate or related corporation of the Recipient, other than an employee or professional adviser to the Recipient and then only for the sole purpose of the Recipient considering and taking advice as to whether it will apply for Units in the Fund; and
- ◆ not to be reproduced, either in whole or in any part or parts, without Gyrostat Capital's prior written consent and, if such written consent is given, only in accordance with that consent.
- ◆ Gyrostat Capital does not currently intend to change the matters set out in this Information Memorandum but may do so in the future by providing 30 days' notice.

Unless determined otherwise by Gyrostat Capital, only Recipients who are "Wholesale Clients" within the meaning of the Corporations Act may subscribe for investments in the Fund.

All amounts expressed in this IM are in Australian dollars, unless specified otherwise.

KEY FEATURES

Please read the entire IM before making a decision to invest.

Item	Feature
Name of the Fund	Gyrostat Absolute Return Income Equity Fund
Date of Information Memorandum	22 December 2020
Trustee	Gyrostat Capital Management Pty Ltd ACN 138 219 002 AFSL No 452917
Investment Manager	The Trustee then Gyrostat Capital Management Advisers Pty Ltd ACN 168 737 246 when the Net Asset Value of the Fund reach \$25 million
Custodian	One Managed Investment Funds Limited ABN 47 117 400 987, AFSL 297042
Investment Structure	Australian open ended unit trust
Investor Eligibility	Unless determined otherwise by Gyrostat Capital, only 'Wholesale Clients' as defined by the Corporations Act (Wholesale Investor)
Minimum Initial Investment	\$50,000 Gyrostat Capital may at its discretion accept a lower amount from an investor who qualifies as a Wholesale Investor
Issue price of Units	Net Asset Value plus the Buy Spread
Investment Horizon	Greater than 12 months
Investment Type	Medium to Long Term
Investment Objectives	The objectives of the Fund are: Returns: 6% -8% in trending markets, greater than 8% in changing markets, BBSW 90 + 3% in stable markets Income: Minimum cash rate BBSW 90 + 3% from dividends and franking credits paid quarterly Protection: No quarterly Net Asset Value draw-downs exceeding 3%
Investment Strategy	Gyrostat Capital predominantly holds assets in high yielding blue chip stocks listed on the Australian Securities Exchange (ASX), and cash, while investing in the ASX options market or international options market to mitigate risk. No more than 15% of the Fund's assets may be invested in international assets including the international options market. The Fund may borrow up to 30% of its assets (measured at the time of debt incurrence) on a secured or unsecured basis.
Buy/Sell Spread	+/-0.15% of the Issue/Withdrawal price
Management Fee	1% p.a. of the Net Asset Value of the Fund paid monthly in arrears
Performance Fee	15% of the increase in the Net Asset Value above the Hurdle Rate calculated and accrued monthly, payable quarterly, subject to High Water Mark

Expense Recovery	The Fund will be charged an expense recovery fee to cover all usual Fund expenses, to be capped at 0.5% pa of the NAV of the Fund (inclusive of GST net of RITC). Certain abnormal and other expenses may also be recovered from the Fund in addition to the capped expense recovery fee. The capped expense recovery fee applies only for the life of this IM and Gyrostat Capital may issue a new IM and change the cap at any time
Applications	Bi-monthly
Withdrawals	Investors can withdraw on a bi-monthly basis. In certain circumstances withdrawals may be suspended.
Distributions	Quarterly
Additional Investments	Bi-monthly
Distribution Reinvestment	Quarterly

THE TRUSTEE, THE INVESTMENT MANAGER & THE FUND

Gyrostat Capital Management Pty Ltd and Gyrostat Capital Management Advisers Pty Ltd are respectively Trustee and Investment Manager of the Fund. Gyrostat Capital Management Advisers Pty Ltd is a wholly owned subsidiary of Gyrostat Capital Management Pty Ltd.

Key Personnel

The senior management team of Gyrostat Capital has extensive experience domestically and globally, as investors, as non-executive directors, and as senior management in funds management, private equity, industry, investment banking, and equity research.

Craig Racine- *Managing Director, Chief Investment Officer*

BCom, LLB, MAppFin, PGDip (Int Fin)

Craig Racine has over 25 years experience, at senior executive and directors' roles, within finance and business development. He has been an investor for the past 12 years, and is the founder of Gyrostat Capital Management. Previously his senior management experience includes Executive Director at The Asian Infrastructure Trust (Hong Kong) with lead investors International Finance Corporation, Asian Development Bank, Soros Funds Management, Frank Russell Investments, and AMP Capital. He was a Managing Director at ING Barings (Asia). He has extensive domestic and international experience, having held senior executive positions in private equity, investment banking, equity research and industry. He began his career in the chartered accounting industry. He has held Board positions in multi-national companies in China, India, Indonesia, The Philippines, Pakistan, and globally.

Peter Clifton BE, MBA, MIEAust, MAICD-

Chairman, Board of Directors

Peter Clifton has over 30 years' experience, both within Australia and internationally, at senior executive and director roles, primarily in the information technology and telecommunications field. He has advised a wide range of companies including Leightons, KPMG, the Asian Infrastructure Trust (Hong Kong), ING Barings (Hong Kong) and the Victorian Government. He has helped establish a number of start-up companies and was on the Board of the ASX 300 listed company Amcom Telecommunications 1999 - 2015. Previously he has held Board positions in companies in India, Sri Lanka, the Philippines, Saudi Arabia and Poland.

Andrew Smith • B.Ec.

Director and Chairman Compliance Committee

Andrew's business career has focussed on finance and the financial markets in the Asia Pacific and the United Kingdom. Utilising the experience gained in his working career, he now holds a number of non-executive and consulting positions. Andrew is also Chairman of Aobo Environmental Technology Ltd, Responsible Manager (ASIC) Goal Advisory Pty Ltd; and Dennis AFSL Pty Ltd.

In his former executive roles he was the Managing Director and Chief Executive of the Stockbroking and Corporate Finance group Intersuisse Ltd (now Phillip Capital) between 2000 to 2010. Prior to that, Andrew was Chairman of the Sedgwick Group in the Asia Pacific between 1995 to 2000 and a member of the Group Executive Committee in London. Andrew has also held non-executive directorships for a variety of listed and non listed companies.

David Barwise • LLB, LLM, MAICD, FGIA, FCIS

Director

David Barwise has over 25 years legal, regulatory and compliance experience within the legal industry in Australia, Europe and Asia (with a focus on managed funds, structured finance, capital markets, banking, asset management and trust and agency services). He was a partner in a leading global law firm for 15 years, a member of its European management board, held a variety of product, client and regional management positions and acted as the relationship partner for a number of global investment and regional banks. He has worked in Australia, London and Singapore. He also holds a variety of post graduate qualifications in law, business, accounting, finance and corporate governance.

Leo Tang, BEng, MSc
Senior Investment Officer

Leo Tang has extensive experience within investment banking, private equity and industry. Previously, he worked as regional analyst in equity research with ING Barings Securities Asia, and in the investment deal team with Asian Infrastructure Fund Advisers, as well as strategic planning specialist with Motorola Asia Pacific.

He is skilled in business analysis, financial modelling, and operational management.

The Fund

The objectives of the Fund are:

Returns: 6% -8% in trending markets, greater than 8% in changing markets, BBSW 90 + 3% in stable markets

Income: Minimum cash rate BBSW 90 + 3% from dividends and franking credits paid quarterly

Protection: No quarterly Net Asset Value draw-downs exceeding 3%

The Fund is an absolute return fund with its benchmark for performance measured against the bank bill swap rate 90 day plus 300 basis points (3.0%). Our returns are designed to increase with market volatility. Our returns guidance is based upon 3 broad market groupings (stable, trending, and changing). The key factors we use are the market range from low to high, and the number of 'reset' opportunities (ie: price movements + - 3%) within this range.

The Fund seeks to achieve this in the medium term irrespective of movements in the stock market. The Fund predominantly buys and holds blue chip stocks listed on the Australian Security Exchange ("ASX"). We simultaneously enter the ASX options market or international options market to hedge risk. Up to 15% of the Fund's assets may be invested in international assets including the international options market. The Fund may borrow up to 30% of the Fund's assets (measured at the time of debt incurrence) on a secured or unsecured basis.

RISKS OF INVESTING

Investors should note that all investments carry risk. Different investment strategies may carry different levels of risk, depending on the assets that make up the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk.

Investors should also be aware that the value of the underlying investments of the Fund may vary. Further, the level of returns from the Fund may vary and future returns may differ from past returns. Returns from the Fund are not guaranteed and investors may lose some or all of their money. The level of risk acceptable to a particular investor will differ depending on various factors including their age, investment time frame, where other parts of their wealth are invested and their risk tolerance.

The following is a summary of what Gyrostat Capital considers to be the significant risks of investing in the Fund and its underlying investments. Recipients and potential investors should carefully consider the following significant risk factors that may affect the performance of the Fund before making an investment in the Fund.

General

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each prospective investor should consult its legal advisers to determine whether and to what extent (i) Units are legal investments for it, (ii) Units can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of any Units. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Units under any applicable risk-based capital or similar rules.

Before making an investment decision prospective purchasers of, or investors in, Units should conduct such independent investigation and analysis (together with taking such professional advice as they deem appropriate under the circumstances) regarding Gyrostat Capital, the Fund and the portfolio, the Investment Manager and the Custodian and all other relevant persons and such market, economic and other factors as they deem appropriate to determine whether such investment is fully consistent with their financial needs, objectives and condition, complies with and is consistent with all investment policies, guidelines and restrictions applicable to them and whether it is a fit, proper and suitable investment for them, notwithstanding the clear and substantial risks inherent in investing in or holding the Units.

As part of such independent investigation and analysis, prospective purchasers of, or investors in, the Units should consider carefully all the information set forth in this Information Memorandum relating to the Fund and the considerations set out below.

Prospective purchasers of, or investors in, the Units may not rely on Gyrostat Capital or any of its respective affiliates in connection with its determination as to the legality of its acquisition of the Units or as to the other matters referred to above.

Assessment of investment suitability

Each prospective investor in the Units must determine the suitability of that investment in light of its own financial circumstances and investment objectives, and only after careful consideration with its financial, legal, tax and other advisers. In particular, each prospective investor should:

- have sufficient knowledge and experience to make a meaningful evaluation of the Units, the merits and risks of investing in the Units and the information contained in or incorporated by reference in this Information Memorandum or any applicable supplement;
- have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Units and the impact the Units will have on its overall investment portfolio;
- have sufficient financial resources and liquidity to bear all of the risks of an investment in the Units;
- understand thoroughly the terms of the Units and be familiar with the behaviour of any relevant indices and financial markets; and
- be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

The Units are complex financial instruments. Sophisticated investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an

understood, measured and appropriate addition of risk to their overall portfolios. A prospective investor should not invest in Units which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Units will perform under changing conditions, the resulting effects on the value of the Units and the impact this investment will have on the prospective investor's overall investment portfolio. Some Units may be redeemable at an amount below their issue price in which case investors may lose the value of part or their entire investment.

Prospective investors intending to purchase Units to hedge against the market risk associated with investing in a reference share (or basket of shares) or index (or basket of indices) or other basis of reference, should recognise the complexities of utilising Units in this manner. For example, the value of the Units may not exactly correlate with the value of the reference share (or basket of shares), index (or basket of indices) or other reference basis. Due to fluctuating supply and demand for the Units, there is no assurance that their value will correlate with movements of the reference share (or basket of shares), index (or basket of indices) or other reference basis

Fund specific risks

Fund risk. These are risks specific to the Fund. These risks include that the Fund could terminate, the fees and expenses of the Fund could change, Gyrostat Capital may be replaced as Trustee and the investment team may change. There is also a risk that investing in the Fund may lead to a different result than investing in the market personally because of income or capital gains accrued in the Fund and the consequences of investment by and withdrawal of other investors. If any of these risks are realised, the returns an investor receives from the Fund may be reduced.

Key Person Risk. This is the risk that key individuals are no longer able to fulfil their obligations in respect of the investment or administration of the Fund. The performance of the Fund may be dependent on the management skill of one or more individuals. If key personnel are no longer able to fulfil their obligations there is a risk that Gyrostat Capital may not be able to find suitably qualified replacement personnel and the performance of the Fund may suffer as a result.

Legal and Regulatory Risk. This is the risk that domestic or international laws or regulations are changed adversely in respect of the Fund or that regulatory supervision of transactions and reporting is performed by the Investment Manager and the Custodian at less than an appropriate standard. Legal, tax and regulatory changes could occur during the term of the Units that may adversely affect the Units, the underlying assets or related derivatives. The regulatory environment is evolving, and changes in the regulation of any entities may adversely affect their value. Regulators and self-regulatory organisations and exchanges are authorised to take extraordinary actions in the event of market emergencies. The regulation of securities and derivatives transactions is an evolving area of law and is subject to modification by government and judicial action. The effect of any future regulatory change on the Fund, its underlying or related derivatives could be material, including clearing and margin requirements for derivatives and consequently may adversely affect the value of the Units. The terms and conditions of the Units are based on relevant laws in effect as at the date of this Information Memorandum. No assurance can be given as to the impact of any possible judicial decision or change to such laws, or the official application or interpretation of such laws or administrative practices after the date of this Information Memorandum. Gyrostat Capital cannot predict what the outcome of any of these risks occurring may be. However, an outcome could be that the performance of the Fund is negatively impacted.

Taxation Risk. Gyrostat Capital will not be giving legal or tax advices to the investors. An investor's effective yield on the Units may be diminished by the tax on that investor of its investment in the Units. Potential purchasers and sellers of the Units should be aware that they may be required to pay taxes or documentary charges or duties in accordance with the laws and practices of the jurisdiction where the Units are transferred or other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available in relation to the tax treatment of financial instruments such as the Units. Prospective investors are advised not to rely upon the tax summary contained in this Information Memorandum but to ask for their own tax adviser's advice on their individual taxation with respect to the acquisition, holding, disposal and redemption of the Units. Only such adviser is in a position to duly consider the specific situation of the prospective investor.

Dependency upon Certain Counterparties. In certain cases, the ability of Gyrostat Capital to meet its obligations under the Units may depend on the receipt by it of certain payments from an underlying fund or assets (if any) and/or on the receipt by it of payments under a relevant derivative contract, deposit or any other agreement, notwithstanding the performance of any relevant underlying fund or assets. Consequently, investors will be exposed to a payment delay or failure in respect of any underlying fund, derivative contract or assets and/or the ability of the counterparty to any such agreement to perform its obligations under such agreement and to the creditworthiness of such counterparty. Gyrostat Capital will depend upon each of the Investment Manager and the Custodian, to perform their respective obligations under the Investment Management Agreement and the

Custody Agreement as applicable. If any of such entities becomes unable to perform its obligations under the Investment Management Agreement and the Custody Agreement as applicable due to insolvency or otherwise, this may affect the Issuer's ability to make payments to investors and investors may not receive all, or any part, of the amounts due to them in respect of the Units and/or such payments (if any) may be delayed.

No Secondary Market and Illiquid Units. There can be no assurance that a secondary market will develop in respect of the Units. Units may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Units easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. The Units may have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Units. Moreover, although Gyrostat Capital can redeem Units in specified circumstances. It may not be obliged to do so in such circumstances. Redemptions made by Gyrostat Capital could affect the liquidity of the secondary market of the relevant Units and thus the price and the conditions under which investors can negotiate these Units on the secondary market.

Exchange Rate Risks. Gyrostat Capital will pay amounts on the Units in Australian Dollars. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the **Investor's Currency**) other than Australian Dollars. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Australian Dollar or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less amounts than expected, or no amounts at all.

Credit Ratings may not Reflect All Risks. One or more independent credit rating agencies may assign credit ratings to the Units. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Units. A credit rating is not a recommendation to buy, sell or hold Units and may be revised or withdrawn by the relevant rating agency at any time. During its holding of a Unit, an investor should take such steps as it considers necessary to evaluate the on-going risks and merits of a continued investment in such Units. Such steps should not rely solely on ratings. In particular, prospective investors should not rely solely on downgrades of ratings as indicators of deteriorating credit. Market indicators (such as rising credit default spreads and yield spreads with respect to the relevant entity) often indicate significant credit issues prior to any downgrade. During the global financial crisis, rating agencies have been the subject of criticism from a number of global governmental bodies that they did not downgrade entities on a sufficiently quick basis. Prospective investors who place too much reliance on ratings, or who do not understand what the rating addresses, may be subject to losses as a result.

Trading in the underlying assets may be suspended, interrupted or terminated. If the underlying assets are listed on one (or more) markets (which may be regulated or unregulated), the listing of such underlying assets may – depending on the rules applicable to such stock exchange – be suspended or interrupted by the respective stock exchange or a competent regulatory authority upon the occurrence of a number of reasons, including violation of price limits, breach of statutory provisions, occurrence of operational problems of the stock exchange or generally if deemed required in order to secure a functioning market or to safeguard the interests of investors. Furthermore, trading in the underlying assets may be terminated, either upon decision of the stock exchange, a regulatory authority or upon application by Gyrostat Capital and existing orders for the sale or purchase of such underlying assets will usually be cancelled. Investors should note that the Issuer has no influence on trading suspension or interruptions (other than where trading in the underlying assets is terminated upon Gyrostat Capital's decision) and that investors in any event must bear the risks connected therewith. Furthermore, a trading suspension, interruption or termination of the underlying assets may well result in an artificial or wrong valuation of the Units. Finally, even if trading in underlying assets is suspended, interrupted or terminated, investors should note that such measures may neither be sufficient nor adequate nor in time to prevent price disruptions or to safeguard the investors' interests. All these risks would, if they materialise, have a material adverse effect on the investors.

Financing risk. If a prospective investor in the Units decides to finance the purchase of Units through funds borrowed from a third party, it should make sure in advance that it can still continue to service the interest and principal payments on the loan in the event of a loss. It should not rely on gains or profits from the investment in the Units which would enable it to repay interest and principal of the loans when due and payable.

Reinvestment risk. The Units may be redeemed in specified circumstances set out in the Trust Deed (including, without limitation, at a price less than their issue price). An investor generally may not be able to reinvest Unit redemption proceeds at

an effective rate of return as high as the return on the Units being redeemed and may only be able to do so at a significantly lower rate of return. Prospective investors should consider reinvestment risk in light of other investments available at that time.

Derivative Investment Risk. Derivatives can be used to reduce risk or gain exposure to other types of investments. The Fund's use of options positions may include but is not limited to, acquiring or disposing of ASX (or other relevant exchange) listed options for purposes of benefiting from large market falls on the ASX200 (or other relevant exchange). The Fund can use derivatives, including exchange traded options, to gain exposure to underlying assets. The Fund can suffer losses in excess of the amounts committed to relevant derivatives. The Fund will also be exposed to the risk that a derivative may not necessarily reflect the performance of the underlying asset to which it is exposed. Additional risks associated with investing in derivatives may include: potential illiquidity of the derivative; the Fund not being able to meet payment obligations as they arise; and counterparty risk (where the counterparty to the derivative contract cannot meet its obligations under the contract). Gains or losses can result from investments in derivatives. Investment in derivatives may increase the losses that would otherwise have been experienced if the derivatives had not been used.

Liquidity risk. Liquidity risk is the risk that the Fund's assets will not be able to be sold readily or for their fair value. If a disproportionate amount of the Fund's assets consists of illiquid assets, the Fund may not be able to realise sufficient assets to satisfy withdrawal requests from investors and investors may not be able to receive some or all of the capital they have invested in the Fund.

Underlying investment risks

Investment risk. The underlying investments of the Fund may fall in value for many reasons, such as changes in an investee entity's internal operations or management, or in the business environment in which the investee entity operates. If underlying investments fall in value, the value of an investment in the Fund will also fall in value.

Market risk. Economic, technological, political or legal conditions and market sentiment can (and do) change. These changes can lead to volatility in the value of investments and the overall level of liquidity in the market. This can affect the value of the Fund's investments and Gyrostat Capital's ability to realise the Fund's investments.

Interest rate risk. Changes in interest rates can have a positive or negative impact directly or indirectly on the Fund's investment values or returns. For example, as a result of interest rate changes, the cost of the borrowings of the investee entities in which the Fund invests can decrease or increase or the income return on a fixed interest security can become more or less favourable.

Currency risk. The Fund predominantly invests in Australian stock and ASX options market. Up to 15% of the Fund may be invested in international assets (including the international options market). If the Fund is invested in international markets the fluctuation of exchange rates may in turn reduce the value of the Fund. For non-resident Australian investors the value of overseas currencies changes relative to the Australian dollar, the value of the investments of the Fund may change.

Derivative risk. The use of derivatives by the underlying companies in which the Fund is invested may cause those securities to lose money which they would not have otherwise lost had they not used derivatives. If this occurs the value of an investment in the Fund may be reduced.

Information risk. Information risk is the risk of local investors not being fully informed of pertinent, price sensitive information about offshore investments or markets. Information risk can relate to political, town planning, business or even cultural issues. Information risk is particularly relevant for companies with non-Australian assets. If any of the underlying investments in which the Fund invests do not have all of the necessary local information, the returns that an investor receives from the Fund and the value of their investment in the Fund may be reduced.

Regulatory risk. This is the risk that, in respect of the Fund's underlying investments, domestic or international laws or regulations are changed adversely or that regulatory supervision of transactions and reporting is performed by manager at less than an appropriate standard.

Concentration Risk. There may be more volatility in the Fund as compared to a broader market index due to the Fund investing in a smaller number of securities than the broader market index

Economic Risk. Future earnings of the Fund and the value of investments held may be impacted by external market factors including the economic climate, global investment markets, domestic equity markets, currency movements, changes in government policy and other factors that are beyond the control of the Fund.

Leverage: The Fund may borrow up to 30% of its assets (measured at the time of debt incurrence) on a secured or unsecured basis. Depending upon the performance of the Fund and market conditions (including borrowing costs and borrowing terms), such borrowings may magnify losses in the Fund or reduce Fund profits. Further, in the event that the Fund was unable to repay such borrowings, investors may suffer a loss equal to the amount recoverable by the relevant lender in respect of such borrowings. Borrowing repayments may rank ahead of payments to investors.

HOW THE FUND WORKS

Structure of the Fund

The Fund is an unregistered managed investment scheme structured as a unit trust. Investments in the Fund are only open to wholesale clients as defined under the Corporations Act unless determined otherwise by Gyrostat Capital (see “Eligible Investors” in the “How to Apply” section for more information on whether you will qualify as a wholesale client).

When you invest in the Fund, you will be issued units in the Fund (**Units**). Each Unit gives you an entitlement to a share of the capital and income of the Fund. However, you are not entitled to any specific assets of the Fund. Generally, the value of your Units may rise or fall depending on the market value of the assets held by the Fund. Gyrostat Capital does not guarantee the return of any capital you invested in the Fund or any specific level of return on your investments.

Gyrostat Capital will determine the Net Asset Value of Units on a bi-monthly basis in order to calculate the Unit price, Withdrawal Price and Performance Fee for that month.

Applications

You can apply for Units by sending us an application form and your application money.

Units in the Fund will be issued on a bi-monthly basis – on the 15th day of each month or the last day of each month. Applications for Units received and accepted by us by the 15th day or last day of the month (as applicable) will be processed at the issue price calculated as at the 15th day or last day of the month (as applicable), or the previous business day in Melbourne (**Business Day**) if the 15th day or last day of that month (as applicable) is not a Business Day (**Issue Date**). Applications for Units received after that time will be processed at the issue price effective for the next Issue Date.

The issue price for series of Units will be an amount equal to the Net Asset Value per Unit for the initial series (calculated as at the Issue Date), plus the administrative fee Buy Spread (refer Fees and Costs section below).

In addition to making an initial investment, you can also make additional investments in the Fund, or reinvest your distributions into the Fund.

Withdrawals

Gyrostat Capital may accept your withdrawal request at its discretion. Under the Constitution of the Fund, Gyrostat Capital is not obliged to offer Unit Holders the opportunity to make, or to give effect to, a redemption request. If we accept your withdrawal request, withdrawal proceeds will be paid to you within 30 Business Days of the Withdrawal Date. A withdrawal may be effected by the redemption/cancellation of your Units (in whole or in part) or by the purchase of such Units by Gyrostat Capital (or a third party nominated by Gyrostat Capital) (in whole or in part).

Under the Trust Deed of the Fund (**Trust Deed**), Gyrostat Capital may honour withdrawal requests at its absolute discretion. Gyrostat Capital has not, to date, exercised its discretion to: (i) not honour a withdrawal request; or (ii) extend the period allowed to satisfy a withdrawal request. Gyrostat Capital may, at its discretion, extend the period allowed for satisfying a withdrawal request until a later Withdrawal Date if, in its opinion, it has taken all reasonable steps to realise sufficient Assets to satisfy a withdrawal request and is unable to do so due to one or more circumstances outside its control (such as restricted or suspended trading in the market for an Asset), it does not consider it to be in the best interests of the Unit Holders as a whole or Unit Holders in a Relevant Class to realise sufficient Assets to satisfy the withdrawal request; or if it is, for any reason, impractical to calculate the Net Asset Value of the Fund, including because of the closure of an exchange or trading or withdrawal restrictions in respect of an Asset. This is permitted under the Trust Deed.

You may request to withdraw your Units in the Fund by sending a withdrawal request to us in writing. If we receive your withdrawal request at least 5 days before the 15th day or last day of a month (as applicable), you will receive the withdrawal price calculated as at the 15th day or last day of the month (as applicable), or the previous Business Day, if the 15th day or last day of that month (as applicable) is not a Business Day (**Withdrawal Date**) or, if we receive your withdrawal request after that time, you will receive the withdrawal price effective for the next Withdrawal Date.

The withdrawal price is an amount equal to the Net Asset Value (taking into account any accrued Management and Performance Fees) per Unit being withdrawn (calculated as at the Withdrawal Date), less the administrative fee Sell Spread (refer Fees and Costs section below).

Unit pricing

The Unit price for the Fund is calculated as at the close of business on every Issue Date and Withdrawal Date.

Distributions

It is the policy of the Fund to pay a minimum distribution based on the 90 day bank bill swap rate (**BBSW90**) + 3% pa. Dependent upon the performance of the Fund, the distribution may be higher than minimum distribution. It is the current intention of the Fund to pay a distribution greater than the minimum distribution in the last calendar quarter if the annualised return of the Fund in that year is greatest than 8%. The Fund may revise its distribution policy at any time.

The Fund will pay distributions to investors on a calendar quarterly basis. You will receive your distribution payment within 60 days following the end of the relevant calendar quarter.

The amount of distribution paid to each investor is calculated by dividing the total amount to be distributed, which is determined by us, by the total number of Units on issue at the distribution calculation date and multiplying the result by the number of Units held by the relevant investor on that distribution calculation date. The current distribution calculation dates are 30 March, 30 June, 30 September and 31 December. Gyrostat Capital reserves the right to suspend distributions at any time.

You may elect to have your distributions from the Fund paid by electronic funds transfer into your nominated account, reinvested in additional Units at the issue price effective for the next Issue Date or a combination of both. If you do not make a choice, or if a direct credit rejection occurs, then your distributions are automatically reinvested in the Fund.

Transfers

Investors may transfer Units held in the Fund. The purchaser of the Units must otherwise be eligible to invest in the Fund. Gyrostat Capital may decline to register a transfer of Units at its sole discretion.

Additional Investments

Additional investments may be made by sending to us an Additional Investment Form together with a cheque or a transfer of the additional investment funds into our account. Currently, no minimum investment amount applies to additional investments. Additional investments are made on the terms and conditions set out in the IM current at the time the additional investment is made. The Trustee reserves the right to impose conditions relating to additional investments upon 30 days' notice to investors.

No minimum additional investment applies to the reinvestment of distributions.

Confirmation

Confirmation of the number of Units issued to you following your initial investment and additional investment will be forwarded to you as soon as is reasonably practicable, which will usually be within 10 Business Days of Units being issued.

Electronic instructions

If you instruct Gyrostat Capital by electronic means, such as facsimile, email or internet, you release us from and indemnify us against all losses and liabilities arising from any payment or action we make based on any instruction (even if not genuine) that we receive by an electronic communication which appears to indicate to us that the communication has been provided by you (e.g. a signature which is apparently yours or that of an authorised signatory for the investment or an email address which is apparently yours). You also agree that neither you nor anyone claiming through you has any claim against Gyrostat Capital or the Fund in relation to any such payment or action. There is a risk that a fraudulent withdrawal request can be made by someone who has access to your investor details and a copy of your signature or your email address. Please take care.

Information about your investments

We will provide you with the following information about your investments in the Fund.

Transaction statements	A confirmation statement for each application for Units or withdrawal request made by you.
Annual taxation statement	An annual statement, which confirms distributed income and its components for the last financial year.
Annual report	Yearly report to investors.

FEES AND COSTS

Administration Fee - Buy/Sell Spread

Investments in, and withdrawals from, managed funds such as this Fund are commonly subject to a buy/sell spread, which reflects the transaction costs incurred by us as the Trustee of the Fund in buying and selling assets when Units in the Fund are issued or redeemed. These costs are additional costs to you.

The application of the buy/sell spread aims to ensure that each investor bears the same proportion of transaction costs associated with their entry to, or exit from, the Fund. The buy/ sell spread is charged because entering or exiting the Fund may necessitate fund administration expenses and may involve the purchase or disposal of assets by the Fund.

The amount of the buy/sell spread represents an estimate by us, as the responsible entity, of the transaction costs that are likely to be incurred in fund administration, or when buying or selling assets, such as brokerage, government charges, taxes (including stamp duty), commissions, underlying investments buy/sell spread and like costs. Such costs are incurred in the day-to-day management of the Fund and are paid directly from the Fund.

The Fund plans on charging a buy-sell spread of +/-0.15% of NAV for both the Issue and Withdrawal of Units. However, this fee is an estimate only and is subject to change.

Management Fees and Expenses

Gyrostat Capital will be responsible for all administrative aspects of the Fund's affairs, including, reporting to Investors, fulfilment of all applicable statutory requirements, and the preparation of accounts.

Gyrostat Capital is entitled to receive a Management Fee of 1% (plus GST) per annum of the Net Asset Value each month calculated based on the Net Asset Value of the Fund at the end of each month. The Management Fee is payable at the end of each month.

A related entity, Gyrostat Capital Management Advisers Pty Ltd will be appointed as Investment Manager when the Net Asset Value of the Fund reaches \$25 million. In its role as Investment Manger it will be responsible for investigation of opportunities, due diligence, investment of funds, exit from investments and other related activities. The Investment Manager will be paid from Gyrostat Capital's Management fee.

All expenses properly incurred by Gyrostat Capital in connection with the Fund (including the establishment of the Fund) or in performing obligations under the Trust Deed, are payable or can be reimbursed out of the Fund. These expenses include but are not limited to professional services for administration, custodial, accounting, audit, taxation and legal advice, as well as other costs including transactional and government charges, and general running and office expenses.

The amount of expenses payable from the Fund's assets is unlimited but will be charged as a capped expense recovery fee 0.5% of the Net Asset Value per annum, for all usual and ongoing expenses of the Fund.

Gyrostat Capital reserves the right to recover expenses that it deems to be unusual or non-recurrent and can be charged to the Fund in addition to the capped expense recovery fee. These expenses are not generally incurred during the day-to-day operation of the Fund and are not necessarily incurred in any given year. They are due to abnormal events, for example, the Fund formation costs, the cost of running Unit Holder meetings, or legal costs incurred for changes in the Trust Deed.

Performance Fees

The Investment Manager will be entitled to receive the Performance Fee from the Fund, equal to 15% (including GST, net of reduced input tax credits) of the increase in Net Asset Value per Unit during the 3 months to 31 March, 30 June, 30 September and 31 December each year, subject to increase in the Net Asset Value per Unit being greater than the increase at the Hurdle Rate (described below) and subject to High Watermark (also described below). The Performance Fee is calculated and accrues monthly in the manner detailed below and is payable within 30 days of the end of each calendar quarter.

This fee is calculated by Gyrostat Capital and invoiced directly to the Fund on a calendar quarterly basis.

Only once the Units have increased in value and made up the under-performance from previous quarters (i.e. exceeded the High Watermark), and performance is in excess of the Hurdle Rate, will a Performance Fee be paid at the end of the calendar quarter.

When a Performance Fee is paid it is calculated by multiplying the increase in the Net Asset Value of the Units in excess of the High Watermark for each subscription during the calendar quarter, as at the day on which the Performance Fee is calculated by 15%, subject to this increase being in excess of the Hurdle Rate.

Performance Fees are calculated on the Net Asset Value per Unit before accrued Performance Fees and before any distributions. The total Performance Fee is calculated and accrues each month based on the performance of individual Units (i.e. the Performance Fee may be different for different investors as the Hurdle Rate will be applied to the issue price of each issue of Units which are likely to be issued at different prices from month to month). The accrued Performance Fees are aggregated at the end of each calendar quarter. The accrued Performance Fee at the end of each calendar quarter is then divided by the number of Units on the register at the end of the calendar quarter so that all investors bear the Performance Fee notwithstanding that it is calculated by reference to the performance of each Unit.

If a Unit Holder redeems Units before the Performance Fee is paid, the withdrawal price will take into account any accrued Performance Fee.

Hurdle Rate

The Hurdle Rate for each calendar quarter is set as at 1 January, 1 April, 1 July and 1 October each year based on BBSW90 + 300 bp (3.0%) p.a. as at those dates. Units in the Fund will be available for subscriptions on a bi-monthly basis. The same Hurdle Rate will apply for each subscription until the end of a calendar quarter. For example, if the BBSW90 is 3.2% on 1 January, the Hurdle Rate for that whole calendar quarter will be calculated as follows:

Hurdle Rate = $[3.2\% + 3\%] \times [90/365]$ (i.e. the number of days in the calendar quarter) .

For an investor that subscribes for Units to be issued during January, February and March the Hurdle Rate will be the rate set on 1 January and will apply for each subscription until the end of a calendar quarter.

For existing investors in the Fund as at the date of this IM, the Hurdle Rate will apply to the Net Asset Value per Unit as at the commencement of the quarter.

High Watermark

For each issue of Units, the Hurdle Rate will be applied to the issue price of those Units and will be cumulatively applied to that issue price to determine the High Watermark.

Using the example above if the BBSW90 is 3.2% on 1 January the Hurdle Rate for that whole calendar quarter will be calculated as follows:

Hurdle Rate = $[3.2\% + 3\%] \times [90/365]$ (i.e. the number of days in the calendar quarter) .

Therefore, the Hurdle Rate = 1.53%.

If Units are issued at \$1.00 at the start of that calendar quarter, the High Watermark would be \$1.0153 (i.e. $\$1.00 \times 1.53\% + \1.00).

The Investment Manager determines whether the increase in the Net Asset Value per Unit is in excess of the Hurdle Rate applied to the Net Asset Value at the end of each calendar quarter.

For those investors whose increase in the Net Asset Value per Unit is in excess of the Hurdle Rate and their High Watermark, they are consolidated into the one group of Units and the next quarterly High Watermark will be the same for all of those investors.

In the event that the High Watermark has not been met for a calendar quarter, a separate High Watermark will be established for the first issue of Units in the next calendar quarter. This is calculated by applying the Hurdle Rate to the Net Asset Value as at the first day of the next quarter. In this case the Hurdle Rate applied to issue price becomes the High Watermark. Only upon the Net Asset Value increasing in excess of the High Watermark will a Performance Fee be paid. The High Watermark will be adjusted for any distributions to investors.

At the end of each calendar quarter, the group Performance Fee is calculated based upon the excess of the High Watermark multiplied by the number of Units that are subject to a Performance Fee.

This means that, notwithstanding that the Performance Fee is calculated based on the performance of each Unit, the amount of the Performance Fee is deducted from the assets of the Fund as a whole .i.e. all investors bear the Performance Fee.

Fee increases and alterations

Fees and charges are current at the date of this IM. Gyrostat Capital may increase fees up to the maximum amounts permitted under the Trust Deed. Under the Trust Deed, Gyrostat Capital may also change the frequency in which Management Fees, expense recoveries and Performance Fees are calculated and paid. Gyrostat Capital does not currently intend to increase the fees and charges set out in this IM but may do so in the future by providing 30 days' notice.

GST

All fees stated in this information memorandum are exclusive of GST unless otherwise stated.

TAXATION

The following is a discussion of taxation issues relevant to an investment in the Fund by investors who are Australian residents for tax purposes and who hold their investment in the Fund on capital account only. Investors who carry on a business of trading in Units or securities should obtain their own tax advice.

As the Australian taxation system is complex and individual Investors have different circumstances, potential Investors are urged to seek professional taxation advice before investing in the Fund. Investors who are non-residents of Australia are urged to seek their own tax advice prior to investing in the Fund.

The tax discussion in this IM refers to Australian taxation laws current at the time of publication, which may change. Reliance should not be placed on the brief and general information provided below.

Income

The Fund intends to distribute all of its net income each financial year to investors.

The Fund is a flow-through for tax purposes, and Gyrostat Capital will not be liable to pay tax on behalf of the Fund or investors (Gyrostat Capital may be required to withhold on some distributions) where the Fund distributes all of its net income in a financial year. Your share of the taxable income of the Fund for each financial year (including reinvested income) forms part of your assessable income.

Capital Gains Tax

To the extent that transactions occur on capital account, we will generally distribute capital gains of the Fund that have been realised throughout the financial year. Taxable capital gains that you become entitled to should be included as part of your assessable income.

If you are an individual, Trustee or complying superannuation trust, and the capital gain relates to underlying assets held by the Fund for more than 12 months, you may be entitled to reduce the net capital gain by applying the discount capital gains tax concession.

Disposal of Units

Any taxable capital gain arising from the redemption of your Units may form part of your assessable income. You may be eligible for the discount capital gains tax concession if the Units are held for 12 months or more and you are an individual, Trustee or complying superannuation Fund.

If you carry on a business of trading in Units or securities, you may be assessed in relation to dealings in Units as ordinary income rather than under the capital gains tax provisions. In such cases you will not be eligible for the discount capital gains tax concession.

Foreign Income Tax Offsets

Where the Fund pays foreign tax in respect of a foreign investment, you may be entitled to receive a foreign income tax offset. The amount of foreign income tax offset received will be detailed in the tax report provided to you for inclusion in your assessable income.

Tax Deferred Components of Income

A portion of the Fund's distributed income may include non-assessable amounts.

Certain non-assessable distributions to you will reduce the cost base of your Units in the Fund. This will be relevant when calculating the capital gain or loss (for capital gains tax purposes) on a subsequent redemption of Units on the withdrawal of the investment.

The new tax system for MITs announced by the Federal Government may result in adjustments to the cost base of your Units where the amount distributed to you is more or less than the taxable income attributed to you.

This information will be detailed in the tax report sent to investors annually.

GST

Investors should not be liable to GST on the subscription, redemption or disposal of Units in the Fund.

Unless otherwise stated, fees and charges set out in this IM do not include amounts for GST. Where applicable, GST will be added to and form part of the fees and charges.

Where GST is included in the fees, charges, costs and expenses incurred by the Fund in respect of supplies it acquires, the Fund may be entitled to claim a reduced input tax credit for part of the GST on some of those supplies.

Tax File Number (TFN) and Australian Business Number (ABN)

It is not compulsory for you to quote your TFN or ABN. If you are making an investment in the Fund in the course of a business or enterprise carried on by you, you may quote an ABN instead of a TFN. Failure by you to quote an ABN or TFN or claim an exemption may oblige us to withhold tax at the top marginal rate (including Medicare levy) on gross payments (including distributions of income) to you.

OTHER INFORMATION

Trust Deed

The Fund is governed by the Trust Deed. Copies of the Trust Deed are available from Gyrostat Capital free of charge. Some of the significant clauses of the Trust Deed are summarised below:

- **Trustee's Power**
Under the Trust Deed, the Trustee has all powers in respect of the Trust that are possible to confer under the law on a trustee as though it were the absolute and beneficial owner of the assets of the Trust acting in its personal capacity.
- **Removal of Trustee**
While the Fund is not a registered scheme, the Trustee may be removed as the trustee of the Fund by a resolution where the required majority is 90%. On the removal of the Trustee, the Trustee shall, in consideration of its removal as Trustee, be entitled to a fee payable from the Assets of 1% of the Net Asset Value at the time of the Trustee's removal.
- **Distributions**
The Trustee will distribute the taxable income of the Trust to ensure that it is not required to pay tax on any income that it receives. Investors are strongly advised to seek advice on the taxation consequences of investing in the Trust.
- **Limitation of liability**
Subject to the Trust Deed and the law, a Unit Holder's liability in relation to a Unit Holder's investment in the Trust is limited to the amount (if any) which remains unpaid for their Units. The Trust Deed also limits the Trustee's need to compensate Unit Holders provided it acts in good faith and without gross negligence.
- **Fees**
Under the Trust Deed, the Trustee has the right to charge a wide range of fees to Unit Holders in the Trust and recover these from the assets of the Trust. The Trustee has determined that, for the term of this IM that it will charge the fees set out in section 8. The Trustee may change these fees by providing Unit Holders with 30 days' notice.
- **Trust Deed amendments**
Subject to the Corporations Act and any other approval that may be required by law, the Trustee may by deed replace or amend the Trust Deed or as otherwise permitted by the Corporations Act.
- **Related Party transactions**
The Trust Deed does not prevent the Trustee from:
 - dealing with itself, as the trustee for a fund or in any other capacity, with an associate or any Unit Holder;
 - being interested in any contract or transaction with itself, as the trustee for a fund or in any other capacity, an associate or Unit Holder or retaining profits or benefits derived from any such contract or transaction; or
 - acting in the same or similar capacity in relation to any other managed investment scheme.It is intended that the Trustee, its related entities, their directors or employees may also invest in Units in the Trust.
- **Entitlement on death of Unit Holder**
The Trustee may refuse to recognise the survivor or the legal personal representatives of the deceased, without providing any reason.
- **Other Conditions**

The Trust Deed includes the following points for consideration by a Unit Holder:

- The Trustee has the right to refuse to register a transfer.
- The Trustee shall convene a meeting of Unit Holders on receiving a request in writing to do so signed by a Unit Holder or Unit Holders holding not less than 20% of the issued Units
- The quorum for a Unit Holders meeting is 2 Unit Holders

Investment Management Agreement

The Investment Manager of the Fund has been appointed by the Trustee to be responsible for all the investment activities of the Fund. It is important that you are aware of some of the significant features of the Investment Management Agreement. Below is a summary of some of the significant clauses in the Investment Management Agreement.

- The Investment Manager is appointed when the Net Asset Value of the Fund reach \$25 million for an initial period of 7 years. The Investment Management Agreement can be extended for a further 5 years at the option of the Trustee by providing written notice at least 6 months before the expiration of the initial term.
- The Trustee can terminate the Investment Management Agreement in a number of circumstances including if at any time the Investment Manager becomes insolvent, breaches a material breach of the agreement and fails to correct it within 30 days of notice of same.
- The Investment Manager is entitled to a management fee and the performance fee described in this IM, less an amount of \$10,000 plus GST per month which will be retained by the Trustee.
- The Trustee appoints the Investment Manager as an authorised representative of the Trustee. This means that the Manager will be able to provide financial services under the Trustee's AFSL.
- The Investment Manager's duties include but are not limited to:
 - investing and managing the portfolio of assets for and on behalf of the Trustee;
 - producing monthly and annual reports that contain information relating to the investments including the name of all investments, the market value of the investments, the carrying value of the investments; and
 - doing all things necessary to ensure that the financial services provided by it and its representatives are provided with due care and skill and covenants that it will comply in all material respects with all relevant laws.
- The Investment Manager will have the powers of a natural person to deal with the portfolio and to do all things and execute all documents necessary for the purpose of managing the portfolio.
- The Trustee indemnifies the Investment Manager against any liabilities incurred by the Investment Manager and its directors, officers, employees, agents and delegates (which they may incur or which may be made against any of them as a result of or in connection with the appointment of or the exercise of the powers and duties by such a person.
- The Investment Manager indemnifies the Trustee against any losses or liabilities reasonably incurred by the Trustee arising out of, or in connection with, and any costs, charges and expenses incurred in connection with any gross negligence, fraud or wilful default of the Investment Manager.
- The Trustee will pay all taxes, costs, charges and expenses properly incurred in connection with the investment and management of the portfolio or the acquisition, disposal or maintenance of any investment of the portfolio.

Anti-Money Laundering Regulations

By applying for Units in the Fund you are taken to agree to the following terms:

- you warrant that you comply with all applicable anti-money laundering laws and regulations, including but not limited to the anti-money laundering laws and regulations of Australia (in force from time to time);
- you are not aware and have no reason to suspect that:
 - the money used to fund your investment in the Fund has been or will be derived from or related to any money laundering or other activities deemed illegal under applicable laws or regulations or otherwise prohibited under any international convention or agreement ("illegal activities");
 - the proceeds of your investment in the Fund will be used to finance illegal activities; and
 - you agree to promptly provide us with all information that we reasonably request in order to comply with all applicable laws and regulations relating to anti-money laundering.

We are required to obtain certain identification and verification information from you in respect of the Anti- Money Laundering and Counter-Terrorism Financing Act 2006, as amended from time to time. This information is requested in the Application Form.

Privacy

When you make an application to invest in the Fund, we will collect personal information from you in the Application Form. We may also collect additional personal information from you by other means in the future. If you have any questions about the personal information collected you should contact us.

You can request access to or change your personal information held by us by writing to us. We will assess your request in accordance with the National Privacy Principles.

The personal information that you supply to us will be used for the primary purpose of establishing your investment in the Fund and to verify your identity. Your personal information will also be used for the purposes of processing your application, administering your investment, complying with applicable laws and regulations for purposes related to our product and service development.

We may also use your personal information to forward to you, from time to time (including by email), details of other investment opportunities available to you from us. However, if you request, no information of that nature will be sent to you.

We will take reasonable steps to protect your personal information that we collect and ensure that the information is accurate and up-to-date. Investor information is held on secure servers or in storage locked in controlled environments. Our employees are required to maintain the confidentiality of any personal information held by us.

If you do not supply us with all the information we need, we may be unable to establish your investment in the Fund, process your application and administer your investment.

The types of organisations to which we may disclose the information provided by you include:

- with your consent, your financial adviser and dealer group;
- any third party service provider we may engage to provide custody, administration, technology, auditing, mailing, printing or other services;
- government authorities when, and to the extent, required by law; and
- our professional advisers (including legal and accounting firms, auditors, consultants and other advisers).

You can update or change your personal information by notifying us in writing at any time (including by facsimile, email and internet - or by phone, subject to passing our security checks).

Custodian

The Fund has appointed One Managed Investment Funds Limited (OMIFL) under a Custody Agreement.

OMIFL has no supervisory role in relation to the operation of the Fund and has no liability or responsibility to a unit holder for any act done or omission made in accordance with the Custody Agreement.

The Custodian has not made any statement or purported to make any statement that is included in this IM or statement on which a statement made in this IM is based, except as set out in this paragraph.

The Custodian expressly disclaims all liability in respect of, makes no representation or any statement regarding, and takes no responsibility for, any part of this IM or any statements in or omissions in this IM other than the reference to its name. This applies to the maximum extent permitted by law and does not apply to any matter to the extent to which the consent is given.

The Custodian does not guarantee the return of any capital sums invested or any rate of return or the performance of any obligations.

HOW TO APPLY

Eligible Investors

An investment in the Fund is only open to wholesale clients for the purposes of the Corporations Act.

An investor is a wholesale client for the purposes of the Corporations Act, where any one of the following applies:

- the investor's investment is \$500,000 or more;
- the investor provides an accountant's certificate stating that the investor has net assets of at least \$2.5 million or has gross income of at least \$250,000 in each of the last two financial years;
- the investor is a "professional investor" (including those that hold an Australian Financial Services Licence (**AFSL**), are APRA regulated or have at least \$10 million worth of assets); or
- Gyrostat Capital is satisfied on reasonable grounds that the investor has suitable previous experience in financial products, subject to certain conditions.

Please refer to the Application Form for the type of written evidence that we will require to accept your investment as a wholesale client.

Minimum investment and withdrawal amounts

The minimum initial investment, additional investment, account balance and withdrawal limits are set out in the table below. All minimum and additional investment amounts are subject to variation at our discretion.

Minimum initial investment	\$50,000
Minimum additional investment	Not applicable
Minimum account balance	Not applicable
Minimum withdrawal	Not applicable
Minimum Distribution Reinvestment	Not applicable

Gyrostat Capital reserves the right to impose conditions relating to the minimum initial investment, minimum additional investments, minimum account balances and minimum withdrawal amounts upon 30 days' notice to investors. The minimum investment amount may be waived for investments made through a wholesale platform (such as an investor directed portfolio service).

Initial and Additional Investments

To make an initial or additional investment in the Fund you must complete an Online Application at:

<https://www.gyrostat.com.au/application-forms/>

Funds should be transferred into the following account:

One Managed Investment Funds Limited ACF Gyrostat Absolute Return Income Equity Fund Subscriptions Account

Bank: St George Bank

BSB: 332-127

Account No: 554334328

Please email details of your direct deposit to application@gyrostat.com.au

Distribution Reinvestment

You can choose to automatically reinvest your distributions for Units in the Fund by instructing us in writing (including by facsimile). Units issued for reinvested distributions will be issued at the issue price calculated at the next Issue Date. There is no minimum distribution reinvestment.

Withdrawals

You can make withdrawals from the Fund by instructing us in writing (including by facsimile and email). Gyrostat Capital may accept your withdrawal request at its discretion. If we accept your withdrawal request, withdrawal proceeds will typically be paid to you within 30 days of the Withdrawal Date.

GLOSSARY

BBSW 90	Is the 3 month Bank Bill Swap rate, a benchmark rate administered by the ASX.
Business Day	Means a business day in Melbourne.
Corporations Act	Corporations Act 2001
Gyrostat Capital, We or us	Gyrostat Capital Management Pty Ltd ACN 138 219 002
Fund	Gyrostat Absolute Return Income Equity Fund
High Watermark	Has the meaning set out in the Fees and Costs section
Hurdle	Has the meaning set out in the Fees and Costs section
IM or Information Memorandum	This information memorandum
Investment Manager	Gyrostat Capital Management Advisers Pty Ltd ACN166 737 246
Issue Date	The day on which Units are issued. Units are issued bi-monthly.
Management Fee	1% (plus GST) per annum of the Net Asset Value of the Fund based on the Net Asset Value of the Fund at the start of each month, calculated and payable monthly in arrears
MITs	Managed Investment Trusts
Net Asset Value	The total value of the assets in the Fund minus any liabilities.
Performance Fee	Has the meaning set out in the Fees and Costs section
Preparation Date	22 December 2020
Recipient	A recipient of this IM
Trust Deed	The trust deed of the Fund
Unit	A Unit in the Fund's Unit trust issued in accordance with this IM and the Trust deed.
Wholesale Investor	A 'wholesale client' within the meaning of s761G and s761GA of the Corporations Act (a general definition is set out in 10.1 ('Eligible Investors')).
Withdrawal Date	The day on which Units are redeemed by the Trustee
