

Gyrostat Levered Absolute Return Income Equity (Class B)

Gyrostat Risk Managed Equity Fund – Address uncertainty through portfolio construction - Volatility is our friend with a 10 year track record of returns increasing with market volatility (including large market falls).

Solutions for: - Equity income (absolute return benchmarks) and Australian and international equities (vs index) with protection always in place against major market falls (sequencing).

Headquartered in Melbourne, Australia, Gyrostat are specialists in delivering diversified low and non correlated investment solutions which address sequencing and portfolio drawdown risk while delivering equity income (derived from dividend pass through and risk management overlay profits.)

The Gyrostat Levered Absolute Return Income Equity Fund is designed to generate equity income of at least BBSW + 6% (paid quarterly) with no quarterly draw-downs to exceed a pre-defined 6% limit. The strategy builds on the class A track record exceeding ten years with no quarterly drawdown greater than a pre-defined 3% limit.

Gyrostat in 2021 has expanded its risk managed investment classes.

Performance (Growth of AUD \$100,000)

Compounded returns are net of fees and including franking credits, cash (BBSW90) includes re-investment of interest
Comparison is with: BBSW90 (cash)

Market Commentary

MONTHLY UPDATE

The Class B NAV at 31 May 2021 was 1.0076

The Class commenced operations on 13 April 2021. The Australian market traded in a range of 3.6% during May (lows 6931 on 19 May, high 7179 on 28 May). Our investment strategy is designed for returns to increase the larger the market range (in either trending, falling, or rising markets)

Market volatility was low with a spike in volatility in mid May (as measured by the VIX and Australia-VIX). The volatility expansion was the major contribution to the fund gains for the month.

FUND OVERVIEW

Purpose: A global non correlated income fund as part of the 'equity income' component of a portfolio to enhance income in a historically low interest rate environment

Investment Objectives:

Returns: To exceed income distributions over rolling 12 months

Income: Minimum cash rate + 6% from dividends and risk management profits paid quarterly

Protection: No quarterly NAV draw-down exceeding 6%.

Distributions may be higher dependent on the performance of the Class.

Class B buys and holds ASX-20 and International listed equities and options with the relevant exchange as the derivative counterparty. The Class may borrow up to 100% of Class assets

Class B is a levered version of Class A designed to deliver higher income than Class A with a higher risk tolerance. It seeks to generate equity income with downside protection always in place. In contrast to Class A it may not necessarily gain from major market falls.
