

Gyrostat Risk Managed Australian Equity (Class C)

Gyrostat Risk Managed Equity Fund – Address uncertainty through portfolio construction - Volatility is our friend with a 10 year track record of returns increasing with market volatility (including large market falls).

Solutions for: - Equity income (absolute return benchmarks) and Australian and international equities (vs index) with protection always in place against major market falls (sequencing).

Headquartered in Melbourne, Australia, Gyrostat are specialists in delivering diversified low and non correlated investment solutions which address sequencing and portfolio drawdown risk while delivering equity income (derived from dividend pass through and risk management overlay profits.)

The Gyrostat Risk Managed Australian Equity Class is designed to outperform the ASX200 accumulation index over rolling 12 months by mitigating against large losses on major market falls (downside protection always in place.) An Australian equities allocation that 'spins out' the ASX200 State Street ETF with protection always with upside. The strategy builds on the class A track record exceeding ten years. Gyrostat in 2021 has expanded its risk managed investment classes.

Performance (Growth of AUD \$100,000)

Market Commentary

MONTHLY UPDATE

The Class C NAV at 31 May 2021 was 0.9795

The Class commenced operations on 16 April 2021. The Australian market traded in a range of 3.6% during May (lows 6931 on 19 May, high 7179 on 28 May). Our investment strategy is designed for returns to increase the larger the market range (in either trending, falling, or rising markets)

Market volatility was low with a spike in volatility in mid May (as measured by the VIX and Australia-VIX). The volatility expansion was the major contribution to the fund gains for the month.

The investment strategy is designed to mitigate against large losses on major market falls (downside protection always in place) and address sequencing risk, particularly for pre and post retiree investors, and is part of an "Australian equities" portfolio allocation.

Gyrostat Risk Managed Australia Equity Class C buys and holds State Street ETF with with lowest cost XJO Australian index protection always in place and dynamically managed with market movements.

FUND OVERVIEW

Purpose: A risk managed Australian ETF as part of the 'Australian equity' component of a portfolio to de-risk portfolio structure.

Investment Objectives:

Returns: To exceed ASX 200 accumulation index over rolling 12 months

Income: To match the ASX 200 accumulation index

Protection: Always in place to mitigate losses against large market falls to address sequencing risk

The strategy could be described as a Risk Managed Australian Equities ETF, holding the ASX200 State Street ETF with a risk management overlay. Leverage can also be added up to 100% of class assets.

- It provides liquidity (ASX200 State Street ETF and XJO Australian index exchange traded options for risk management overlay)
- It provides a stable and reliable source of income (from dividends, franking credits, and risk management overlay)
- It provides an opportunity to address sequencing risk
