

Gyrostat Risk Managed Global Equity (Class E)

Gyrostat Risk Managed Equity Fund ARSN 651 853 799

Gyrostat Risk Managed Equity Fund – Address uncertainty through portfolio construction - Volatility is our friend with a 10 year track record of returns increasing with market volatility (including large market falls).

Solutions for: - Equity income (absolute return benchmarks) and Australian and international equities (vs index) with protection always in place against major market falls (sequencing).

Headquartered in Melbourne, Australia, Gyrostat are specialists in delivering diversified low and non correlated investment solutions which address sequencing and portfolio drawdown risk while delivering equity income (derived from dividend pass through and risk management overlay profits.)

The Gyrostat Risk Managed Global Equity Class E is designed to outperform the Morningstar® Global Markets Index™ over rolling 12 months by mitigating against large losses on major market falls (downside protection always in place.) An international equities allocation that 'spins out' the ACWI iShares ETF with protection always with upside. The strategy builds on the class A track record exceeding ten years.

Market Commentary

MONTHLY UPDATE

The Class E NAV at 30 November 2021 was 0.9049.

The Class commenced operations on 8 June 2021. The Morningstar® Global Markets Index™ traded in a range of -4.1% during November (high 107.23 on 16 November, low 102.88 on 30 November). Our investment strategy is designed for returns to increase the larger the market range (in either trending, falling, or rising markets)

Market volatility saw significant increases in November (as measured by the VIX and Australia-VIX).

The investment strategy is designed to mitigate against large losses on major market falls (downside protection always in place) and address sequencing risk, particularly for pre and post retiree investors, and is part of an “International equities” portfolio allocation.

Gyrostat Risk Managed Global Equity Class E buys and holds iShares AWCI ETF with lowest cost AWCI index protection always in place and dynamically managed with market movements.

FUND OVERVIEW

Purpose: A risk managed global ETF as part of the ‘global equity’ component of a portfolio to de-risk portfolio structure.

Investment Objectives:

Returns: To exceed the benchmark index over rolling 12 months

Income: To match the benchmark index

Protection: Always in place to mitigate losses against large market falls to address sequencing risk

The strategy could be described as a Risk Managed Global Equities ETF, holding the iShares ACWI ETF with a risk management overlay. Leverage can also be added up to 100% of class assets.

- It provides liquidity (iShares ACWI ETF and ACWI index exchange traded options for risk management overlay)
- It provides a stable and reliable source of income (from dividends and risk management overlay)
- It provides an opportunity to address sequencing risk
