

Gyrostat Risk Managed Hong Kong Equity (Class D)

Gyrostat Risk Managed Equity Fund ARSN 651 853 799

Gyrostat Risk Managed Equity Fund – Address uncertainty through portfolio construction - Lower beta with alpha for diversification benefits with a 14 year track record of returns increasing with market volatility (including large market falls).

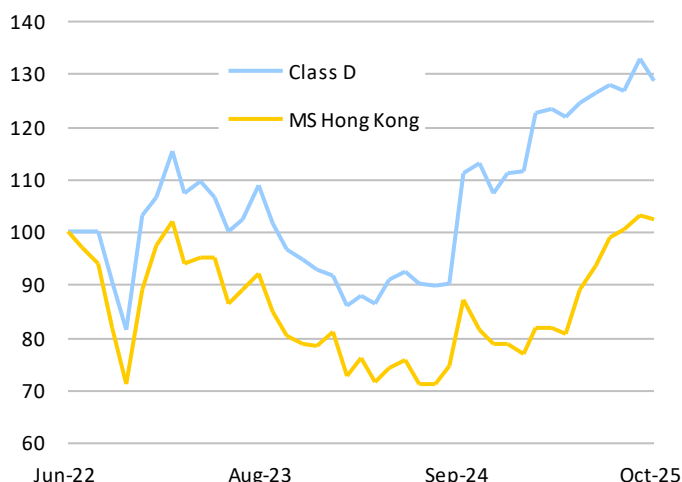

5 classes: - Regular equity income (absolute return benchmarks) and Australian and international equities (index return benchmarks) with protection always in place against major market falls (sequencing).

Headquartered in Melbourne, Australia, Gyrostat are specialists in delivering diversification benefits through low and non correlated investment solutions which address sequencing and portfolio drawdown risk while delivering equity income (derived from dividend pass through and risk management overlay profits).

The flagship Gyrostat Absolute Return Income Equity Class A has a track record exceeding fourteen years with no quarterly drawdown greater than a pre-defined 3% limit.

Class D is designed to outperform the Morningstar® Hong Kong Index™ over rolling 12 months whilst mitigating against major losses on large Hong Kong market falls.

MONTHLY UPDATE

NAV per unit was HK\$8.9666. Total NAV of the Fund was A\$33.2m

The Class commenced operations on 1 Jul 2022, having previously operated under mandate for over 2 years.

The Hong Kong market traded in a narrow with modest falls in October and remains near 52W highs. The price of risk, as measured by the VHSI, has fallen significantly from the 7 April 2025 high of 48.02 to close at the 21.10 level on 31 October, significantly reducing the cost of protection. During October, the price of risk briefly spiked then closed slightly lower.

The narrow index trading range saw monthly underperformance Vs our benchmark during the month.

Since inception of the class, Gyrostat Class D delivered total returns after fees of 7.84% pa with a beta of 0.82 and outperformed the index by 7.20% pa. During the past 12 months the class has underperformed by index by -11.84% driven by the large reductions in the cost of protection.

The investment strategy is designed to mitigate large losses on major market falls (downside protection always in place) and address sequencing risk, particularly for pre and post retiree investors, and is part of an overseas equities portfolio allocation to Hong Kong (including mainland Chinese firms included in the Hong Kong Markets Index).

The Class buys and holds the Tracker Fund with the lowest cost Hang Seng Index protection always in place dynamically managed.

CLASS OVERVIEW

Strategy: Designed to outperform the Morningstar® Hong Kong Index™ over rolling 12 months whilst mitigating against major losses on large Hong Kong market falls (downside protection always in place).

Purpose: A risk managed global ETF as part of the 'global equity' component of a portfolio to de-risk portfolio structure.

Investment Objectives:

Returns: To exceed the benchmark index over rolling 12 months

Income: To match the benchmark index

Protection: Always in place to mitigate losses against large market falls to address sequencing risk

The strategy could be described as Risk Managed Hong Kong Fund, holding Tracker Fund of Hong Kong with a risk management overlay. Leverage can also be added up to 100% of class assets.

- It provides liquidity (Tracker Fund of Hong Kong and Hang Seng Index exchange traded options for risk management overlay)
- It provides a stable and reliable source of income (from dividends and risk management overlay)
- It provides an opportunity to address sequencing risk
